KATHLEEN M. ROTZ
LUNG CANCER RESEARCH FUND

Dear Participants, Sponsors and Supporters,

We are gearing up for the 4th Annual Kathleen M. Rotz Lung Cancer Research Fund 5K Run/Walk at Tyler State Park on September 29, 2018.

As always, all proceeds of the Kathleen M. Rotz Lung Cancer Research Fund will be dedicated specifically to develop translational research initiatives for immunotherapy in the use of chimeric antigen receptors (CAR) T Cells to treat advanced stage lung cancer at the University of Pennsylvania's Abramson Cancer Center.

We are thrilled to report back from our recent meeting with Dr. Evan Alley, Dr. Steven Albelda and Toru Kimura, PhD on May 12, 2017, that the initial CAR T-Cell clinical study has been advanced to include the Fibroblast Activation Protein (FAP) CAR T-Cell study on targeted cancer associated fibroblast (CAF).

It is through your continued support and participation that the mission of the Fund will directly benefit **OUR** research hospital, **OUR** doctors and ultimately **OUR** patients in **OUR** community! We are so very proud and humbled. Thank you to all who have and continue to donate and contribute to the fund to make our dream and the mission of the fund a reality! Without you, this is not possible. Again, thank you!

It is in this spirit, that we again reach out and request your continued support and participation with us in the 4th Annual 5K Run/Walk for the benefit of this new clinical trial for lung cancer.

Please see the following page for sponsorship opportunities, and we thank you for joining with us to

“believe” the cure is within.

Sincerely,

The Rotz Family
